

A Subsidiary of DIVERSIFIED CHEMICAL TECHNOLOGIES, INC.

METALWORKING INDUSTRIAL CLEANERS DEGREASERS & DISINFECTANTS SINCE 1971

www.dchem.com

Founded in 1971, Diversified Chemical Technologies, Inc. (DCTO) has been a best-in-class chemical manufacturer in Metalworking, Food/Beverage, Healthcare and Industrial Cleaners & Disinfectants.

Diversified Chemical Technologies Operating, Inc. has earned its reputation through a commitment to quality, service, and cost-effective innovation and solutions. Our proprietary cleaners, process fluids and disinfectants provide our customers with a complete range of design and build capabilities, manufactured to the highest quality and environmental standards through our ISO certified facilities.

OUR CUSTOMERS

OEM's

Tier 1-3's

Industrial Manufacturing

Chemical Management

Institutional, Quick Serve, Food & Beverages, Home/Health/Pharma

OUR PRODUCT LINES COVER:

AUTOMOTIVE & INDUSTRIAL

Metalworking Fluids
Stamping and Drawing Fluids
Process and Parts Cleaners
Rust Prevention

INSTITUTIONAL AND QUICK SERVE

Specialty Cleaners & Degreasers
Floor Care Products
Kitchen Surface Products
Disinfecting & Sanitizing

FOOD & BEVERAGE

Cleaning & sanitizing products
Clean-in-Place applications
Clean-out-of-Place applications

HEALTHCARE

Envirocleanse, our
EPA registered
disinfectant &
sanitizer

Products
Including:

METALWORKING FLUIDS

	Product	Description	Recommended Use		Application			Operations					
			Steel /Cast Iron	Aluminum	Light Duty MWF	Medium Duty	Heavy Duty MWF	Grinding	Drilling	Milling	Threading	Turning	Broaching
Synthetic	Unicool 322	Premium medium to heavy-duty synthetic metalworking fluid containing a combination of lubricity and EP additives for use in a variety of machining operations. Efficient bacteria and fungi control, which leads to the prevention of slime formation and odor. Easily dilutable in water and does not contain sulfur, chlorine, nitrites, phenols, triazine, or secondary amines.	•	•			•	•	•	•	•	•	
	Unicool 388	Economical synthetic metalworking fluid designed specifically for use in ferrous metal roll forming operations where low foam, corrosion protection, ease of concentration control, and excellent biostability are critical. Rejects tramp oil for removal by rope skimmers or other methods. Operator acceptance is extremely high due to its mild nature and clean operating characteristics. Contains non-ferrous corrosion inhibitors to prevent stains during storage on aluminum alloys or yellow metals.	•	•	•			•	•	•	•	•	
	Unicool 397	Moderate duty synthetic metalworking fluid containing a combination lubricity and EP package for use in a variety of machining operations. Unicool 397 has superior rancidity control, with Extremely low foam characteristics, Non-ferrous corrosion inhibitors to prevent attack on wiring or yellow metals.	•	•	•	•		•	•	•	•	•	
Semi-Synthetic	Unicool 410CS	Semi-synthetic metalworking fluid formulated with multiple types of lubricity agents for excellent performance on a broad range of metal substrates. Effective rust inhibitor package preventing in-process corrosion on both machines and parts.	•	•	•	•		•	•	•	•	•	
	Unicool 427	Heavy duty semi-synthetic metalworking fluid designed for machining and grinding of steel, cast aluminum, and aluminum-magnesium alloys. Contains a combination lubricity and EP package for use in a variety of machining operations. Can effectively be employed in high pressure, high volume CNC machining due to its excellent anti-foaming characteristics	•	•			•	•	•	•	•	•	
	Unicool 4104	Excellent performance in light to medium duty machining or stamping operations. It provides excellent performance in drawing and stamping operations such as blanking, punching, forming and moderate drawing and as a general purpose semi-synthetic cutting and grinding fluid in operations such as drilling, milling, sawing and turning operations. Contains no sulfur or chlorine. Excellent bio stability.	•	•	•	•		•	•	•	•	•	
Neat Oil	Unicut 500	Straight oil metalworking fluid containing a balanced blend of boundary lubricant, extreme pressure agents, ester, anti-oxidant, and corrosion preventive providing the needed anti-weld, and extreme pressure characteristics for machining and thread cutting operations. Unicut 500 does not contain heavy metal compounds, has a high flash point and a low odor for ease of use and disposal. Unicut 500 has excellent post-production storage protection.	•	•	•	•		•	•	•	•	•	•

STAMPING PRODUCTS

	Product	Description	Recommended Use			Application				Operations				Dilution Ratio
			Steel	Stainless Steel	Aluminum	Rollcoat	Dip	Spray	Brush	Forming	Drawing	Tube Flaring	Other	
Soluble Oil	Multidraw 204	Heavy duty, soluble oil stamping and drawing compound designed for a wide range of operations. EP and anti-wear agents for extended tool life and superb part surface finish. Good detergency for part cleanliness and less die buildup with alkaline pH to prevent flash corrosion on steel.	•	•	•	•	•	•	•	•	•	•	•	Up to 9:1
	Multidraw CS-4300	Heavy duty, soluble oil stamping and drawing compound for ferrous and non-ferrous metals. Specifically designed for heavy duty operations where tight tolerance, high temperature and extreme pressure performance are needed.	•	•	•	•	•	•	•	•	•	•	•	Up to 10:1
	Multidraw SMT-2	Heavy duty; soluble oil stamping and drawing lubricant where excellent emulsion stability and excellent corrosion protection in extreme weather conditions are required. Contains specific corrosion protection ingredients that prevent stain or corrosion in environments where the humidity may be greater than 95% and temperatures exceeding 40C/100F.	•	•	•	•	•	•	•	•	•	•	•	Up to 19:1
Straight Oil	Multidraw 94	Designed for fin forming and other light stamping applications. Can be aqueous washed or thermally degreased. Multidraw 94 is a light duty evaporative metal forming lubricant that is designed to evaporate at low temperatures/mild heat and leave no residue at typical degreasing temperatures. Its low viscosity reduces fluid drag out and improves operating costs. Multidraw 94 has a low odor for ease of use and disposal.	•		•	•	•	•	•	•			•	
	Blanker Oil BO-11	Auto OEM approvals. designed to be used on cold rolled steel and galvanized steel for outer and inner body parts. Blanker Oil BO-11, an oil-based product, has superior compatibility with pre-lubed steel compared to most water-based material designed for this purpose. It can be used as received or diluted with mineral seal oil.	•		•	•	•	•	•	•	•	•	•	
	Multiform S-703	Medium duty, straight oil based drawing compound designed for a wide range of draw operations including progressive die and transfer presses.	•		•	•	•	•	•	•	•	•	•	
Synthetic	Multistamp S-300 MXR	Designed with high performance corrosion protection as well as stamping and drawing performance are required. The product provides enhanced protection during the production process or over weekend shutdowns. Optimizes surface finish using anti-wear and film forming components. Does not contain chlorinated paraffin, nitrites, or phenols.	•		•	•	•	•	•	•	•	•	•	Up to 12:1
	Multistamp S-400	Water-based, fully synthetic stamping compound developed to meet and exceed the performance of oil-based products while eliminating the environmental concerns. Multistamp S-400 does not contain chlorinated paraffin, nitrites or phenols	•		•	•	•	•	•	•	•	•	•	Up to 9:1

PARTS WASH & CLEANERS

Product	Description	Recommended Use		Properties						Soils Removed					Method		
		Steel /Cast Iron	Aluminum	Temp Range F	Silicates	Boron	Nitrites	Phosphates	Oil Rejection	Emulsions	Light Duty MWF	Heavy Duty MWF	Paste/Wax/Grease	Particulate	Spray	Immersion	Ultrasonic
Dunkwash J5IM	Immersion Cleaner specifically designed to handle the tough cleaning requirements for engine remanufacturing. High alkaline, concentrated non-foaming liquid compound designed for use in immersion washers with no or low agitation. The product is very effective in cleaning aluminum and ferrous alloys parts at wide range of temperatures up to 190F. DUNKWASH J5 IM is capable of loosening and liquefying extremely hard to clean soils like highly carbonized oils and greases.	•	•	100-190	•	•		•	•	•	•	•	•	•	•	•	•
Flooroclean 336 SNP	Floor/Maintenance Cleaner - Alkaline, extremely low VOC liquid compound with light pleasant citrus smell designed for use either automatic scrubber machines or hand mopping and bucket applications. Effectively removes grease, oil and dirt from concrete, linoleum, or ceramic flooring in manufacturing facilities.	•	•	N/A	•					•	•	•	•	•	N/A	N/A	N/A
Prowash 125	Provides effective long term rust protection on ferrous substrates up to six month at indoor and outdoor storage along with effective removal of light metalworking fluids and its residuals off steel surfaces. concentrated mild alkaline, low to non-foaming, liquid blend of corrosion inhibitors designed to provide long term protection on cast iron and steel surfaces.	•		80-150		•			•								
Prowash 256C	Highly concentrated water-based non-foaming liquid compound designed for use in cleaning machined ferrous parts in spray washers including high pressure washers. The product is DEA, phosphates, silicate free. PROWASH 256-C is highly effective in removing of fluids, machining fluids, and light oils from steel surfaces. It can be recommended for use in washers prior or after heat treatment operations. Provides medium to high term rust protection. Does not leave hard or sticky residue on washed parts, excellent Bio resistance & oil rejection.	•		80-160					•	•	•	•	•	•	•	•	•
Prowash 256C(a)	Concentrated water-based non-foaming liquid compound designed for use in cleaning machined aluminum alloys and ferrous parts in spray washers including high pressure washers. The product is DEA, phosphates, silicate free. PROWASH 256-C(a) is highly effective in removing of fluids, machining fluids, and light oils from parts surfaces.	•	•	80-160					•								

PARTS WASH & CLEANERS

Product	Description	Recommended Use		Properties						Soils Removed					Method		
		Steel /Cast Iron	Aluminum	Temp Range F	Silicates	Boron	Nitrites	Phosphates	Oil Rejection	Emulsions	Light Duty MWF	Heavy Duty MWF	Paste/Wax/Grease	Particulate	Spray	Immersion	Ultrasonic
Prowash 345	Concentrated low to non-foaming liquid compound designed for use in cleaning machined aluminum alloys and ferrous parts in spray and immersion washers. The product is DEA, phosphates free. highly effective in removing of fluids, machining fluids, hard to remove rust preventatives and light oils from parts surfaces. Highly effective in removing of fluids, machining fluids, hard to remove rust preventatives and light oils from parts surfaces.	•	•	80-180	•	•			•	•	•	•	•	•	•		•
Prowash 727 GTB	Parts Wash Cleaner with extensive in process corrosion protection. Highly concentrated mild alkaline water- based low foaming liquid compound designed for use in cleaning of steel parts in both immersion and spray washers. The product is DEA free. Highly effective in removing of variety of oils, including quench oils as well as fluids, machining fluids, and light oils from steel surfaces. It can be recommended for use in washers prior or after heat treatment. Also, it is recommended in metalworking fluid system clean-out procedures. Provides effective excellent detergency, low emulsification and good oil rejecting leading to extension of working solution.	•	•	80-180					•	•	•	•	•	•	•	•	•
Prowash J101LSP	Spray Cleaner specifically designed to handle the tough cleaning requirements for engine remanufacturing. Alkaline low to non-foaming liquid compound designed for use in pressure washers. The product is very effective in cleaning of aluminum and ferrous alloys parts in a wide range of temperatures from ambient up to 190 OF. PROWASH J101 LSP can clean off spent motor oils and greases from highly soiled engine blocks and related parts. Does not affect aluminum substrates and alloys. Provides medium term rust protection on ferrous substrates.	•	•	100-190	•	•	•	•	•	•	•	•	•	•	•		•
RP wash 1257	Highly concentrated mild alkaline, low to non-foaming, liquid blend of corrosion inhibitors designed to provide long term protection on cast iron and steel surfaces. The product provides moderate cleaning of lightly soiled parts surfaces as well. Provides effective long term rust protection on ferrous substrates up to six month at indoor and outdoor storage. Excellent protection against bacteria and fungi.	•		80-160		•			•	•	•	•	•	•	•		•

JANITORIAL & COMMERCIAL KITCHEN PRODUCTS

Disinfectants & Sanitizers

Envirocleanse A

Envirocleanse-A is a broad-spectrum, liquid disinfectant that contains no bleach, no harsh chemicals for use on all hard surfaces. ECA's GHS chemical hazards rating of 0, 0, 0, 0 makes it gentle enough to use around kids and pets, while its powerful disinfectant properties enable ECA to be highly effective in antimicrobial care.

Cleaner with Bleach

- Ready to Use
- General Purpose, Chlorinated Cleaner
- No Rinse, Wipe Off with Cloth

Cleaners & Degreasers

Heavy Duty Cleaner & Degreaser

- Professional Grade Cleaner Degreaser
- Removes Dirt, Soils and Grime
- Ready to Use for Heavily Soiled – Dilutable for Lightly Soiled
- Pleasant Smell – No PPE Required
- Most Powerful Usage Dilution

RTU Cleaner & Degreaser

- Professional Strength Cleaner Degreaser
- No Dilutions Required
- Residue Free
- Environmentally Friendly

All Purpose Cleaner

- Multiple Purpose Cleaner Degreaser
- Removes Dirt, Soils and Grime
- Ready to Use for Heavily Soiled – Dilutable for Lightly Soiled
- Pleasant Smell – No PPE Required
- Most Powerful Usage Dilution

All Purpose Cleaner RTU

- Professional Strength Cleaner
- No Dilutions Required
- Residue Free
- Environmentally Friendly

Glass & Multi-Surface Cleaner

- Maximum Strength Glass & Multi-Purpose Cleaner
- Ammonia Free – Streak Free on Glass
- Lowest Cost in Use – Most Powerful Usage Dilutions
- Pleasant Smell – No PPE Required
- Environmentally Friendly

Stainless Steel Cleaner & Polish

- Non-Corrosive, Ready-to-Use, Phosphorus Free
- Restores and Protects Stainless Steel Surfaces
- Provides “Hand Polished Look” on Kitchen Appliance Surfaces
- Removes Finger Prints and Water Spotting

Oven Grill Fryer Cleaner

- Commercial Grade, Ready to Use
- Removes Baked-On Food & Grease
- Designed for Hot & Cold Surfaces
- Good Clinging Action for Vertical Surfaces
- Dilutable for Fryer Boil Out
- Foaming Spray Attachment

Mark-Out Graffiti Remover

- Ready-to-Use, Highly Concentrated, Non-Corrosive Formula
- Effective Graffiti and Fresh Paint Remover
- Performs on Plastic, Wooden and Steel Surfaces
- Pleasant Citrus Smell – Non-Aerosol

Specialty Kitchen & Floor Products

Hi-Temp Grill Cleaner

- Phosphorus Free – Use on Carbon and Stainless Steel
- Dissolves and Liquifies Baked-On Cooking Oils and Fats
- Easy to Clean – Does Not Require Abrasive Pad
- Wipe Clean

Alumigrill

- Phosphorus Free – Used on Aluminum & Stainless Steel
- Dissolves and Liquifies Baked-on Cooking Oils and Greasy Residues
- Easy to Clean – Does Not Require Abrasive Pad
- Wipe Clean

Freezer Cleaner

- Cleaner for Walk-in Freezers & Refrigerated Coolers
- Effective Cleaning at Temperatures as Low as -30°F
- Liquifies and Removes Frozen Dirt and Grime
- Safe to Use on Concrete, Steel, Aluminum, and Plastic Surfaces
- No Rinse Required

Delimer

- Phosphorus Free – Ready-to-Use
- Removes Hard Water and Rust Deposits
- Eliminates Deposits Saturated with Cooking Oils & Fats
- Effective for Use with Automatic Dishwashers
- Not for Direct Food Contact Surfaces

Oven Cleaner

- Phosphorus Free – Ready to Use
- Removes Baked-on Food, Fats and Oils
- For Use on Ovens and Smokehouses
- Easy to Remove with Non-abrasive Pad
- Adheres Well to Vertical Surfaces

Oven Shield

- Reduces Cleaning Time
- Protects Oven Surfaces from Baked-On Fats and Oils
- Minimizes Scraping and Scrubbing
- Eliminates Need for Aggressive Cleaners

Aluminum Tray & Pan Soaker

- For Use on Aluminum Baking Trays and Pans
- Safe for Overnight Application
- Contains Powerful Penetrating and Liquifying Agents
- Removes Heavily Encrusted and Carbonized Grease

Cutting Board Restorer

- Ready-to-Use – Chlorinated Cleaner
- Designed for Food and Meat Industry
- Removes Blood Stains and Fats from Plastic or Stone Surfaces
- Effective for Meat-Cutting Boards or Tables

CitriFresh Drain Maintainer

- Contains Natural Ingredients, Ready-to-Use
- Non-Corrosive Drain Renovator and Deodorant
- Keeps Drain Holes Clean and Eliminates Odor
- Fresh Citrus Smell

BioDrain XL

- Ready-to-Use, Phosphorus Free, For Use in Drain Lines
- Safe to Use with Septic Systems and Grease Traps
- Reduces Buildup and Keeps System Free Flowing
- Contains Microorganisms Selected for Maximum Performance

Floor Cleaners

Clean Pace

- Neutral Multipurpose Cleaner
- Highly Concentrated
- Does not dull the finished surface
- Environmentally friendly

Floor Cleaner & Degreaser

- Professional Strength Floor Cleaner Degreaser
- Low Foam Application – Pleasant Smell
- Lowest Cost in Use
- Will not Dull Floor Finishes
- Environmentally Friendly

Heavy Duty Cleaner & Degreaser

- Professional Grade Cleaner Degreaser
- Removes Dirt, Soils and Grime
- Ready to Use for Heavily Soiled – Dilutable for Lightly Soiled
- Pleasant Smell – No PPE Required
- Most Powerful Usage Dilution

All Purpose Cleaner

- Multiple Purpose Cleaner Degreaser
- Removes Dirt, Soils and Grime
- Ready to Use for Heavily Soiled – Dilutable for Lightly Soiled
- Pleasant Smell – No PPE Required
- Most Powerful Usage Dilution

Also Available

Oven Detergent

- Closed Loop Oven Cleaner
- For Use with Self-Cleaning Ovens and Roasters
- Removes Heavily Encrusted Grease and Carbon from Stainless Steel Surfaces

Automatic Dishwashing Detergent

- Highly Concentrated, Non-Foaming
- Effective Removal of Food Soils
- For Use on Plastic, Glass, Stainless Steel and Silverware
- No Rinse Aid Required

Envirocleanse A

Envirocleanse-A is a broad-spectrum, liquid disinfectant that contains no bleach, no harsh chemicals for use on all hard surfaces. ECA's GHS chemical hazards rating of 0, 0, 0, 0 makes it gentle enough to use around kids and pets, while its powerful disinfectant properties enable ECA to be highly effective in antimicrobial care.

Envirocleanse-A can be used in:

- Healthcare
- Food Services
- Janitorial Services
- Oil & Gas Fields
- Water Reclamation
- Cruise Lines
- Livestock & Poultry
- Childcare Centers
- Gyms
- Airports
- Police & Fire Stations
- Industrial & Commercial Buildings
- Residences
- Pharmaceutical & Medical Device Producing Establishments
- Agriculture Facilities
- Retail & Wholesale Establishments
- Vet & Pet Care Facilities
- Transit Facilities
- Laboratories
- Office Buildings
- Hospitality
- Schools

"The World's Friendliest Disinfectant"

EPA Approved / EPA N-Listed
for use against SARS-CoV-2

Direct Tested & Proven to
Kill SARS-CoV-2 in 60 seconds

Kills 99.99% of
Bacteria & Viruses

No Rinse for Food-
Contact Surfaces

OMRI
Organic Listed

Lowest Toxicity
Rating
(EPA Cat. IV)

No PPE Required
for Use

Safe for use around
Children & Pets

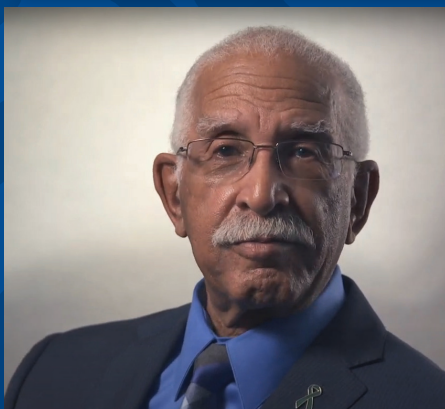

Non-Irritant to
Skin & Lungs

Deodorizer

ABOUT US

01

02

Founded in 1971, Diversified Chemical Technologies, Inc. has built a 50-year tradition of Creating Trusted, Transformative Partnerships with both customers and our people. We are proud to also partner with industry leaders in all three businesses, combined with our internal appetite for innovation and unique customer solutions. With more than 150 years of combined experience in multiple industries, Diversified Chemical Technologies, Inc.'s leadership committee provides the roadmap to customer solutions and impacts the building of an internal culture of leadership and empowerment.

04

05

06

07

As an MBE (Black Owned) company founded in 1971, our CEO, George Hill, had a vision to partner with leaders in technical solutions and then with customers who were leaders in the markets. This has transformed into Key Alliance Partnerships with P&G, Henkel, Grainger, and Staples, aligning with multiple Fortune 100 partners, creating unique, tailored solutions with their diversity and inclusion goals.
